

## LSDB Important Transportation Information

Please be aware due to the wide variety of Focus Programs available in Limestone, transportation is *not guaranteed to all Focus Program destinations*. Students and parents should discuss transportation with the Focus program teacher prior to accepting a seat in the desired program.

In circumstances where the student or the parent agree to provide the transportation, or if the student lives within 3.6 km of the host school, no action will be taken by the host school.

In circumstances where the student requires transportation, the home school can request a seat on a Focus specific bus from Tri-Board Transportation Services. A request form is available at the home school and will need to be completed and sent to the host school. Completing the form is not a guarantee that transportation is available in current location.

Students are encouraged to consider Kingston Public Transit if applicable:  
[www.cityofkingston.ca/residents/transit](http://www.cityofkingston.ca/residents/transit)

### For students completing Tri-Board request form:

Applications must be faxed by the host school to Tri-Board Transportation by the first Friday in May. Fax# 613-354-1279.

Please indicate on the Transportation Form the name of the Focus Program chosen. Students who are in programs that run two semesters must indicate this on the form. Confirmation will be faxed to both the home and host schools when arrangements have been made.

Students providing their own transportation on the first day of the new semester may not be fully aware of the actual arrival and pick-up times of the Focus Program bus. First Day transportation by bus will be up to the student to confirm their transportation arrangements either by Tri-Board or by their own means.

Students with questions about transportation are advised to contact their home-school Focus Program contact person in Student Services or contact Tri-Board Transportation directly at 613-354-1981

Additional Transportation forms can be downloaded from the Tri-Board site at, [www.triboard.on.ca](http://www.triboard.on.ca)

The Host school will confirm the travel arrangements and convey the information to the student and the home school.

**Note:** *Students should be informed that the transportation provided may not allow them to arrive at the host school in time for the beginning of class, and may require them to leave class early. **Students are asked to plan with their teachers the recovery of missed time.***
