Studio LC is a learner-centred, film-driven set of courses designed for highly motivated and community minded students interested in film, video, music, and digital arts media production. As part of a team you will plan, write, act, shoot and edit your films in our classroom studios.

Students will deconstruct media from a technical, creative and social perspective as well as design, produce and promote films for the LCVI Film festival and a variety of community related events.

Students can identify for further certifications and activities leading to a Specialist High Skills Major in Arts and Culture.
